

Electronic Ticketing - E-Indicators

Effective Date	30 April 2008	Date Sent	30 April 2008
Brand	<i>Worldspan</i>	Market	<i>Global</i>
Information Notice	<p>As the travel industry is aggressively moving towards 100% e-Ticket, Worldspan wants to remind our customers that an *E* appended to the end of the PNR segment is not mandatory before an e-Ticket can be issued.</p> <p>In addition, we will begin adding interline agreements for carriers that are not Worldspan e-Ticket participants. An *E* will not append to the end of the segment of the non e-Ticket participant; however an e-Ticket can be issued when validating on a carrier that is an e-Ticket participant.</p>
