**Ticketing Reminder – Airlines’ Private Fares Ticket Issuance**

Dear Valued Customers,

This is a friendly reminder not to override the following data during ticket issuance for any Airline Private Fare filed with an automated ticketing package, which has a control on:

- Endorsement, Commission, Baggage, and Tour Code (IT/BT)
- Net Remit processing
- Access to Private Fares

Please be advised that you will only need CARRIER and FOP and remember not to use **#IT.@IT** in the ticketing entry as this will result in the removal of the Tour code. Failure to do so may result in receiving an ADM from the airlines.
