Redefining travel commerce

Travelport – Worldspan

Worldspan 是其中一個全球分銷系統-GDS 。

用於旅行社和旅遊相關的網站，預訂機票，酒店房間，租車，旅遊配套及相關產品。

Worldspan 並同時提供IT服務和產品解決方案。

Smartpoint 全新版面設計 - 智能化的網上預定平台

The screenshot displays the Travelport Smartpoint web interface. At the top, there is a navigation bar with 'Travelport Smartpoint' and a search bar. Below this, a menu includes 'RESERVATIONS', 'WORLD FILES', 'FARES & PRICING', 'DOCUMENTATION', 'INFORMATION', 'SMART TOOLS', and 'SETTINGS'. A secondary menu shows reservation counts from '1 Res' to '10 Res'. The main content area is divided into two panels. The left panel is a large dark grey area with a green and blue gradient overlay containing the text: '方便快捷的訂位系統' and '新圖示、屏幕設計及智能色彩編碼令使訂位變得更簡易'. The right panel is a 'PNR Viewer' with tabs for 'Smart Panel' and 'History'. It displays a list of codes: '*AD *G *PD *PP *PI XI'. Below the PNR Viewer is a 'My Links' section with 'Calendar', 'Notes', and 'News' tabs. The 'Calendar' tab is active, showing a calendar for October and November 2013. The October calendar has the 25th highlighted in green. Below the calendar are two promotional banners: one for 'DOLLAR' car rentals with a blue car and a 'Learn More' button, and another for 'Experience the Unexpected' with a price of '\$219'. At the bottom of the interface, there is a status bar with 'AVAIL', 'OVR', 'No Scripts Running', 'United Kingdom', 'Oct 25', and '11:17 AM'. The footer shows 'T4SQ102C0 13 T4SQ42C0 3 QCT QSORT QSETUP'.
